MEMORANDUM FOR: Chief, Arms Control Intelligence Staff
FROM: Director of Central Intelligence
SUBJECT: Broad Gauged Data Denial

1. Fred Ikle called me to urge that we support allegations of broad gauged data denial as an arms control violation. He seemed to be having the impression that we were objecting to having any mention of this on security grounds and asked me to look into what could be said without jeopardizing sources and methods.

2. Let me know what is involved in this so that I can address it.

A handwritten signature in dark ink, consisting of a stylized 'C' followed by a horizontal line.
